

Our location

Bahrain is an archipelago of 33 islands, combined to create an area of over 700 square kilometers. The site is situated in the shallow waters off the north eastern coast of Muharraq island, an historic settlement and previous capital of the Kingdom.

DIYAR AL MUHARRAQ is a 12 square kilometer seabed site that is being reclaimed to produce 10 square kilometers of prime urban waterfront development, with over 40km of new canal and beachfront shorelines under construction. Situated only 5-10 minutes from the Bahrain International Airport on Muharraq, and only 20 minutes to the central business area of Manama capital, DIYAR AL MUHARRAQ is well positioned.
